TO FRED KIDD
Ida Hodge vs. John W. Kidd et al.
State of Tennessee in the Chancery Court of Knox Co. No. 16220
In this cause, it appearing from the amended bill filed, which is sworn to that the defendant, Fred Kidd is a non-resident of the State of Tennessee, so that the ordinary process cannot be served upon him, it is ordered that said defendant appear before the Chancery Court, at Knoxville, Tennessee, on or before the 1st Monday of Dec. next, and make defense to said bill, or the same will be taken for confessed by him and the cause set for hearing ex parte as to him. This notice will be published in the Knoxville Independent for four consecutive weeks.
This 26th day of Oct. 1918

The engine drivers' strike in South Wales collapsed with the arrival of the military. Several regiments were sent to Cardiff as well as to East London. The soldiers, many of them veterans from France, arrived ready for business. The crowds cheered them and the strikers were completely cowed. The strike on the North London line also collapsed.

Women gas and electric meter readers are to be employed by the Alliance Gas & Power Co. of Alliance, Pa. It was announced. A few will be put to work and if they make good, all meter readers will be women. The Morgan Engineering Co. is employing girls for the first time as messengers in the interworks service the company maintains. They are furnished uniforms.

Nearly 200 piledrivers and ironworkers engaged in construction for the municipal board went on strike at New Orleans, charging that the board was employing negro labor to place iron re-enforcing in concrete instead of using members of the International Association of Bridge, Structural and Ornamental Ironworkers for the purpose. Members of the Piledrivers' union quit work in sympathy with the ironworkers.

Investigation of the large labor turnover, executive overtime and night work in the postal service was asked by the executive committee of the National Federation of Postal Employees in conference with Assistant Postmaster General Koons. The committee asked that the postmaster general conduct the inquiry. Mr. Koons told the committee that efforts were being made to adjust the hours of work for postal employees.

British Engineering and Shipbuilding trades unions have asked for an advance in wages of 100 per cent above pre-war rates.

FOCH TO HAND TRUCE TERMS TO HUN CHIEFS

Surrender of Kaiser's Armies to Be Demanded on the Battlefields.

EXPECT FOE TO QUIT WAR

London Times Correspondent Says Allies Have Agreed on Armistice Conditions and Allied Successes Leave Little Doubt of Germany's Acceptance.

London, Dec. 5.—The allies have decided that Germany must apply to Marshal Foch, the allies' commander in chief, for an armistice, Lloyd George announced in the house of commons.

Washington, Nov. 5.—The allied armistice terms will be presented to the German high command through Field Marshal Ferdinand Foch in the field. They will not go forward through President Wilson. This was authoritatively learned. There are two reasons for this action. First, the United States no longer has any definite line on exactly who now are the real rulers of Germany. The second is that the terms of necessity affect the German military organization. Consequently they should be initiated by the generalissimo of the allied forces.

If accepted, they will mean surrender and an immediate end of the war, leaving final peace terms to be dictated by the victors.

Unity Is Complete.

Secretary of State Lansing made this statement:

"According to an official statement received here the terms of the armistice to Germany have just been agreed to unanimously and signed by the allies in Paris.

"The report further states that complete diplomatic unity has been achieved."

The president's outline of the probable armistice conditions to Germany as published Sunday follows:

1. Withdrawal of the German armies to a line 30 miles behind the Rhine, leaving their military equipment to the allies.

2. Surrender of the German naval base at Heligoland.

3. Surrender of the entire German navy, including submarines.

Must Yield or Face Ruin.

The Austrian terms, made public by the state department, enable Germany, the arch conspirator of the central powers, to read the fatal handwriting on the wall. She must follow Austria's lead in bowing to the allies and the United States or suffer the most terrible consequences that ever befell any nation.

Austria, after what military men term the "most abject" surrender in history, is a potential enemy of her one time ally.

The terms that the entente governments and our government compelled Austria to accept are so complete that not one loophole for further hostilities is left the remains of the dual monarchy.

On the contrary, all of her resources are left at the disposal of Germany's enemies to be used against Germany in the event that country continues fighting.

Huns to Accept Allied Terms.

London, Nov. 6.—In sending the news that the allies have agreed on the armistice conditions for Germany, the Times' Paris correspondent says that the allied successes on the French front leave little doubt of Germany's acceptance.

PETAIN THANKS RED CROSS

French Commander Says the Allied Armies Are Grateful for Aid to Soldiers' Families.

General Petain, commander in chief of the French armies, has written to Harvey L. Gibson, American Red Cross commissioner for France, thanking the American Red Cross for a donation of 10,000,000 francs, to be devoted to the assistance of needy families of French officers and men.

"I know that in addressing the American Red Cross I speak to the people of the United States," General Petain wrote. "My thanks therefore go to your people. I am happy to have the opportunity to transmit evidence of the grateful affection of our armies. Your intervention will dissipate many cares and lighten many misfortunes."

FOUR KILLED BY EXPLOSION

Blast Occurs in New Jersey Plant, Where Aluminum Powder Is Made for Star Bombs.

Boundbrook, N. J., Nov. 6.—Four men were killed in an explosion in the plant of the Metals Disintegrating company, at East Boundbrook. The cause of the explosion is unknown. The plant is engaged in the manufacture of aluminum powder, used in star bombs, by the government.

The entire plant, consisting of four wooden buildings, was shattered by the force of the explosion.

ALLIED ARMIES SMASH FOE ON 55-MILE FRONT

French Pierce Hunding Line—British Capture Fortified Town of Le Quesnoy.

YANKS WIN RIVER CROSSING

Pershing Reports Victory on Meuse at Stenay—Americans Only Ten Miles From Sedan—Entente Forces Capture 13,000 Huns.

Paris, Nov. 6.—From the Dutch frontier to east of the Meuse, the 200-mile battle line is aflame, as the British, French, Americans and Belgians crush the resistance of the enemy and push on for important gains. Everywhere on the long line the allies are progressing and on the French sectors, between the Oise and the Aisne, the Germans are withdrawing on Marle and Montcornet. Field Marshal Haig, having taken the strong point of Le Quesnoy, is pressing on Maubeuge, while the Americans are fighting their way across the Meuse southwest of the railroad center of Montmady.

Washington, Nov. 6.—Victorious attacks by the American First army on its entire front are reported by General Pershing. On the extreme right, breaking down the last efforts of the enemy to hold the high ground, the Americans drove through the valley of the Meuse and the forest of Dieulet and occupied the important river crossing at Stenay.

Yanks Near Sedan.

General Pershing's forces are now within ten miles of Sedan and within easy range of the railroad south of that city. In fact, it is said that the fire of the American guns has cut this great artery of German communications and that it is useless to the enemy for transporting troops or supplies eastward from the Aisne and Oise forts, where large forces of Germans still are holding their lines against the French.

Battle on 55-Mile Line.

Paris, Nov. 6.—The French First army launched a new attack on a 40-mile line against the great elbow of the west front in the morning extending from the Peron river southeastward to the Aisne. At the same time the French forces pushed forward between the Peron and the junction with the British lines at the Sambre, extending the attacking front to a width of 55 miles.

French Pierce Hunding Line.

French successes compelled the Germans to make new withdrawals at several points along the front, according to the war office statement.

Between the Oise and the Aisne the French have advanced about one mile on a five-mile front. The French First army resumed the attack and is making progress between Sissonne and Chateau Porcien, a front of more than 15 miles. The French have penetrated the Hunding line of the Germans.

French troops continue successfully to pursue the Germans in the region of Guise, northeast of which they have taken the village of Bergues-sur-Sambre, according to war office announcement.

With the German retreat eastward through Lorraine virtually cut off by the American advance on the west side of the Meuse, British, French, Belgian and American troops are striking hard at the enemy's lines in northern France and Belgium. Field Marshal Haig's men launched a terrific attack south of Valenciennes and have made progress which seems to threaten the German hold on Mons and Maubeuge.

Ghent now is virtually isolated by the French, Belgians and Americans. At last accounts the lines of the allies were close to the city on the west, north and northeast, and it is said that allied cavalry has been operating in the outskirts of the city.

British Capture Le Quesnoy.

London, Nov. 6.—British troops in their offensive southeast of Valenciennes have captured the fortified town of Le Quesnoy, after having completely surrounded it. Field Marshal Haig announced. The entire garrison of more than 1,000 men was taken with the citadel.

Rapid progress has been made by British divisions east of Le Quesnoy, where an advance of between three and 4 miles has been scored. The villages of Jolmetz, Lerond, Quesnoy, Fresnoy and Le Petit Marais have been captured.

Further ground has been gained in Mormal forest. The village of Eth, five miles southeast of Valenciennes, has been taken.

Allies Take 13,000 Huns.

London, Nov. 6.—British and French troops attacking on a 30-mile front from north of Valenciennes south to the Oise have captured 13,000 prisoners and 250 guns. The maximum advance was three miles, but the allied forces are still advancing and have taken more than 20 villages.

Yanks to Travel Light.

Washington, Nov. 6.—The war department has ordered that hereafter soldiers traveling "oversens" shall travel light. Only officers shall carry ammunition and that only for their pistols.

AMERICAN ARMY IS 3,764,677

Had Reached That Strength When
Hostilities With Germany Had
Ended.

Washington.—The American army had reached a total strength of 3,764,677 men when hostilities ceased, according to official figures at the War Department. Of that number 2,200,000 had been sent to France, Italy or Russia. The remainder were under arms in camps in this country. Signaling of the armistice with Germany which brings the world war to an end does not mean that the great American military machine will cease to operate at once. America must play an important part in disarming and guarding the enemy, and until this work is completed, even the movement of troops to France will be continued although on a greatly reduced scale.

Military Wire Tapped.

Ayer, Mass.—The capture of an alleged German spy in the act of tapping a wire carrying confidential messages between the headquarters of the Twelfth Division at Camp Devens and the War Department at Washington was reported by Federal officers and members of the Division Intelligence Department. The man, whose name was given as Private Pressley H. Springfield, of B Company, Two Hundred and Twelfth Field Signal Corps, was arrested with two civilians and will be tried by General Court-martial, it was said.

Demobilization of Labor Guides.

Washington.—Demobilization of men in the military and naval service of the United States, after their return from France, will be carried out largely on a basis of the ability of the trades and occupations to absorb them, under a plan being worked out by the Labor, War and Navy Departments and the War Industries Board. It was said that the plan will be submitted to President Wilson in a few days.

Crop Cost Inquiry Fails.

Washington.—Secretary Houston, in a communication to the Senate in response to a resolution calling for information on the cost of producing farm products, reported that, after an extensive investigation, experts named by the secretary, as well as a committee composed of experts from the Kansas State Agricultural College, Purdue University, University of Wisconsin, Pennsylvania State College and the Universities of Minnesota and Texas, had failed to produce definite figures.

Alleging that negro women are refusing to work, thereby causing a serious shortage of cotton pickers and farm labor, Pine Bluff (Ark.) business men and planters began a movement to have the "work or fight" order applied to women. It is said the women are living on allotments paid by draft relatives.

To relieve the common labor short age 1,200 Porto Ricans, first of a force of 30,000, have arrived at New Orleans aboard an army transport, the United States employment service announced. They will be employed in the construction of warehouses being erected in that city by the war department.
